

**Client is employed but still receiving a grant of more than \$10.00. First paycheck has been received. Is she still entitled to receive gas assistance?**

She would not be entitled to gas for her employment beyond the date she receives her first full paycheck, 468-000-309. We will not subsidize her employment for an ongoing period of time by providing her gas. If a crisis or emergency arises where she does not have the cash resources to buy gas for work, then we can assist her, if necessary, for those one time occurrences.

The case manager has the flexibility to make exceptions to this guideline based on individual situations, please see this Policy Log entry ----->
